### A complete online solution for small businesses

A MySiteAnywhere™ website is a complete online solution for small businesses. Each site includes a custom domain name and hosting, mobile and online marketing tools, SEO tools, social sharing, analytics and more.

### Optimized for smart phones, tablets, PC's and TV's

By 2014, consumer mobile web usage will surpass the desktop, and this matters greatly to small businesses. That's why MySiteAnywhere websites are optimized for the widest variety of consumer devices and profiles. From the smart phone and tablet to the PC and connected television, MySiteAnywhere ensures an optimal consumer Web experience.

### Setup in minutes requiring no technical skills

With the experience of 150,000 small- and medium-sized business websites hosted on the Gumiyo Platform, MySiteAnywhere was designed with *simplicity* in mind. In other words, MySiteAnywhere considers the small business owner who is focused on running her business—not setting up and maintaining her website.

### Perfect for Publishers, Local Media Companies and Ad Networks

MySiteAnywhere is built to easily integrate with products and services offered by ad networks, SEO/SEM providers, local directories, print and digital publishers, and individual affiliate representatives. *Sites can even be provisioned in advance from publisher data feeds!* Contact us today to discuss mutual affiliate relationships.
